Cicero is one of the most influential thinkers in the history of Western political thought, and interest in his work has been undergoing a renaissance in recent years. The Ciceronian Tradition in Political Theory focuses entirely on Cicero's influence and reception in the realm of political thought. Individual chapters examine the ways thinkers throughout history, specifically Augustine, John of Salisbury, Thomas More, Machiavelli, Montaigne, Hobbes, Locke, Adam Smith, and Edmund Burke, have engaged with and been influenced by Cicero. A final chapter surveys the impact of Cicero's ideas on political thought in the second half of the twentieth century. By tracing the long reception of these ideas, the collection demonstrates not only Cicero's importance to both medieval and modern political theorists but also the comprehensive breadth and applicability of his philosophy.

The Latin course is written entirely in Latin. It consists of two parts: I: Familia Romana -- the fundamental or elementary course. II: Roma Aeterna -- the advanced course, with Indices covering both parts. The direct method is based on the inductive principle of learning. In the text every sentence is intelligible per se, or self-explanatory, because the meaning and function of all new words and grammatical forms are made clear by the context in which they occur, or if necessary, by illustrations or marginal notes using vocabulary already learned. This demands a carefully graded text, but in order to make learning efficient the content should stimulate interest and curiosity and make it easy for the reader to visualise the scenes and situations described. To meet these demands the chapters of Lingva Latina I form a continuous narrative, a sort of Latin novel, which captivates the students so that they look forward to reading the continuation of the story. While reading this story and learning facts about the Roman life and traditions, the students pick up the vocabulary and grammar that will enable them to go on. in Part II, to read a representative selection of Latin literature, both prose and poetry. Here, too, all new words and structures, if not immediately intelligible from the context, are explained by marginal notes or illustrations. In addition, factual information is given in the margin. Part I covers the essentials of Latin grammar and introduces a basic vocabulary of some 1600 words. The 35 chapters form a sequence of scenes and incidents from the life of a Roman family in the second century A.D. Each chapter is divided into 3 or 4 lessons (lectiones) and consists of several text pages followed by a section on grammar, three exercises, and a list of new words. At the end of the volume there is a survey of inflexions, a Roman calendar, and alphabetical word-list and a grammatical index.

This is a book about Roman comedy, ancient theatre imagery, and seven medieval illustrated manuscripts of Terence's six Latin comedies. These manuscript illustrations, made between 800 and 1200, enabled their medieval readers to view these comedies as "mirrors of life".
