Ecological economics. In the 1970s, when some economists were developing environmental economics, another economist, Herman Daly, was developing a far more radical field of knowledge that he called 'steady-state economics', or SSE. [6] It subsequently evolved into the nominally interdisciplinary field of 'ecological economics' - the ...

Ecosystem service valuation is a developing area of environmental economics. As no two watersheds are alike, neither in source, landscape, amount of water generated, or size of the population it serves, identifying viable valuation methods from the literature provides a guiding framework to measure economic impacts as a result of the NYC watershed.
