Inside this hilarious handbook is the information kids need to make 10 one of the best years of their lives--from the fun to the serious to the downright disgusting.

A comprehensive, visual reference, enhanced by two thousand photographs and illustrations, provides information on all major fields of knowledge and includes timelines, sidebars, cross-references, and other useful features.

Dominate age eight with a trove of earth-shattering secrets, jokes, and tips they won't teach you in school! What's the best gift for a kid who's turned eight? Everything they need to know! Eight is a banner year in every kid's life. It's when they're finally granted "big kid" status. That means more freedom and responsibility. It also means there's a ton of stuff to learn, and some of it's pretty important. Inside this hilarious handbook is the information kids need to make eight one of the best years of their lives--from the fun (How to Win Halloween), to the serious (How to Get Germs Before They Get You) and the downright disgusting (How to Make Boogers You Can Eat).

It's the revolutionary world history study guide just for middle school students from the brains behind Brain Quest. Everything You Need to Ace World History . . . kicks off with the Paleolithic Era and transports the reader to ancient civilizations--from Africa and beyond; the middle ages across the world; the Renaissance; the age of exploration and colonialism, revolutions, and the modern world and the wars and movements that shaped it. The BIG FAT NOTEBOOK™ series is built on a simple and irresistible conceit--borrowing the notes from the smartest kid in class. There are five books in all, and each is the only one book you need for each main subject taught in middle school: Math, Science, American History, English, and World History. Inside the reader will find every subject's key concepts, easily digested and summarized: Critical ideas highlighted in marker colors. Definitions explained. Doodles that illuminate tricky concepts. Mnemonics for a memorable shortcut. And quizzes to recap it all. The BIG FAT NOTEBOOKS meet Common Core State Standards, Next Generation Science Standards, and state history standards, and are vetted by National and State Teacher of the Year Award-winning teachers. They make learning fun, and are the perfect next step for every kid who grew up on Brain Quest.

Conquer age nine with the earth-shattering secrets and must-know tips they won't teach you in school! Nine is an awesome age. One of the best! You finally start to get the respect you deserve, but you still get to enjoy being a kid. Before kids are ready for more independence, there's a lot they need to know. This handbook brings together the hilarious (How to Disguise Your Appearance), the helpful (How to Keep Your Head Bug-Free) and the potentially lifesaving (How to Save Someone Who's Choking) to help kids enjoy every second of year number nine!

An instant introduction to early childhood education.

A perfect introduction for students and laypeople alike, A Degree in a Book: Psychology provides you with all the concepts you need to understand the fundamental issues. Filled with helpful diagrams, suggestions for further reading, and easily digestible features on the history of psychology, this book makes understanding the human mind easier than ever. Including the theories of Francis Galton, Sigmund Freud, Ivan Pavlov, and many more, it covers the whole range of psychological research. By the time you finish reading this book, you will be able to answer questions such as: • How do we learn? • Do groups make better decisions than individuals? • How do we study the living brain? • What are the components of personality?

Readers' imaginations will be fired on every page with this wonderful single-volume encyclopedia. The book is arranged thematically into ten core topics: Earth, Space, Science,Machines, My Body, People and Places, History, Dinosaurs, Plants and Animals. A range of informative and interactive features perfectly enhance and consolidate each reference section.

When trainers use games, learners win big. As a trainer interested in game design, you know that games are more effective than lectures. You've seen firsthand how immersive games hold learners' interest, helping them explore new skills and experience different points of view. But how do you become the Milton Bradley of learning games? Play to Learn is here to help. This book bridges the gap between instructional design and game design; it's written to grow your game literacy and strengthen crucial game design skills. Experts Sharon Boller and Karl Kapp share real examples of in-person and online games, and offer an online game

for you to try as you read. They walk you through evaluating entertainment and learning games, so you can apply the best to your own designs. Play to Learn will also show you how to: Link game design to your business needs and learning objectives. Test your prototype and refine your design. Deploy your game to motivated and excited learners. So don't just play around. Think big, design well, and use Play to Learn as your guide.
