About Foundation In this chronicle of the early history of Valdemar, a thirteen-yearold orphan named Magpie escapes a life of slavery in the gem mines when he is chosen by one of the magical Companion horses of Valdemar to be trained as a Herald.

The long-awaited brand new novel in the bestselling Valdemar series. In this chronicle of the early history of Valdemar, Mercedes Lackey's bestselling world, a thirteen year- old orphan named Magpie escapes a life of slavery in the gem mines when he is chosen by one of the magical Companion horses of Valdemar to be trained as a Herald. Thrust into the center of a legend in the making, Magpie discovers talents he never knew he had and witnesses the founding of the great Heralds' Collegium.

Magpie, a teen orphan, escapes a life of slavery in the gem mines when he is chosen by one of the magical Companion horses of Valdemar to become a Herald, in which role he discovers talents that he never knew he had and witnesses the founding of the Heralds' Collegium. Reprint. A best-selling novel.

Magpie is a thirteen-year-old orphan chosen by one of the magical Companion horses of Valdemar and taken to the capital city, Haven, to be trained as a Herald. Like all Heralds, Magpie learns that he has a hidden Gift-the Gift of telepathy. But life at the court is not without obstacles. When Mags is "recognized" by foreign secret operatives whose purpose is unknown, Mags himself comes under suspicion. Who are Magpie's parents-who is he, really? Can Mags also solve the riddle of his parentage and his connection with the mysterious spies-and prove his loyalty-before the king and court banish him as a traitor?

Life at the Heralds' Collegium in Haven has definitely improved for Mags. He's even become something of a hero since risking his own life to rescue Amily--daughter of Nikolas, the King's Own Herald--from Karsite kidnappers. But Mags still doesn't know who his parents were, and Bear, Mags' Trainee friend, was not one to let him forget: "You gotta deal with your past Mags, you have to. If you don't, it'll just keep coming back to haunt you, and one day it'll do something to you that you can't get out of." Mags began his special training as Nikolas' undercover partner and future spy for the crown. Disguised, they work at night in one of the seedier parts of Haven, where Nikolas had set up a false identity as a pawnbroker and fence. Mags poses as his deaf-mute nephew, covertly watching and listening from behind the desk. He was especially good at the trait that had kept him alive as a child laborer in the gem mine--ferreting out hidden motives. Now Mags has graduated to a new role: Nikolas' partner and information broker. Mags channels his old cunning self from the mines and discovers that he's quite good at his new job. So good, in fact, that Nikolas decides to let him open the shop alone one hot, summer night. Mags has barely unlocked the shop when everything goes black in a blinding flash of pain. He wakes with an agonizing headache, bound, blindfolded, in a conveyance of some kind. But worst of all, he's head-blind. No Mindspeech--he can't even sense Dallen. And if he can't sense or hear Dallen, then no one can sense him. And if no one can sense him, no one can come to his rescue.

Enter the thrilling third volume in the epic Collegium Chronicles. In Mercedes Lackey's classic coming-of-age story, the orphan Magpie pursues his quest for his parent's identity with burning urgency-while also discovering another hidden talent and being trained by the King's Own Herald as an undercover agent for Valdemar. Shy Bardic Trainee Lena has to face her famous but uncaring father, one of Valdemar's most renowned Bards. And Healing Trainee Bear must struggle against his disapproving parents, who are pressuring Bear to quit the Healers' Collegium because he lacks the magical Healing Gift. Each of the three friends must face his or her demons and find their true strength as they seek to become the full Heralds, Bards, and Healers of Valdemar.

Mags returns to the Collegium, but there are mixed feelings--his included--about him actually remaining there. No one doubts that he is and should be a Herald, but he is afraid that his mere presence is going to incite more danger right in the heart of Valdemar. The heads of the Collegia are afraid that coming back to his known haunt is going to give him less protection than if he went into hiding. Everyone decides that going elsewhere is the solution for now. So since he is going elsewhere--why not return to the place he was found in the first place and look for clues? And those who are closest to him, and might provide secondary targets, are going along. With Herald Jadrek, Herald Kylan (the Weaponsmaster's chosen successor), and his friends Bear, Lena, and Amily, they head for the Bastion, the hidden spot in the hills that had once been the headquarters of a powerful band of raiders that had held him and his parents prisoner. But what they find is not what anyone expected.

Mags, a telepathic herald, comes under suspicion by foreign operatives, prompting him to investigate who his parents really were and what his connection is to these mysterious spies, so that he can prove his loyalty to the king before he is banished as a traitor.

Groundbreaking epic fantasy series in Mercedes Lackey's Valdemar universe • Lambda-Award winning novels with heartfelt high adventure and magic

Though Vanyel has been born with near-legendary abilities to work both Herald and Mage magic, he wasn't no part in such things. Nor does he seek a warrior's path, wishing instead to become a Bard. Yet such talent as his, if left untrained, may prove a menace not only to Vanyel but to others as well. So he is sent to be fostered with his aunt, Savil, one of the fame Herald-Mages of Valdemar. But, strong-willed and self-centered, Vanyel is a challenge which even Savil cannot master alone. For soon he will become the focus of frightening forces, lending his raw magic to a spell that unleashes terrifying wyr-hunters on the land. And by the time Savil seeks the assistance of a Shin'a'in Adept, Vanyel's wild talent may have already grown beyond anyone's ability to contain, placing Vanyel, Savil, and Valdemar itself in desperate peril.

Mags was once an enslaved orphan living a harsh life in the mines, until the King's Own Herald discovered his talent and trained him as a spy. Now a Herald in his own right, at the newly established Heralds' Collegium, Mags has found a supportive family, including his Companion Dallen. Although normally a Herald in his first year of Whites would be sent off on circuit, Mags is needed close to home for his abilities as a spy and his powerful Mindspeech gift. There is a secret, treacherous plot within the royal court to destroy the Heralds. The situation becomes dire after the life of Mags' mentor, King's Own Nikolas, is imperiled. His daughter Amily is chosen as the new King's Own, a complicated and dangerous job that is made more so by this perilous time. Can Mags and Amily save the court, the Heralds, and the Collegium itself?

In this new series, set in the bestselling world of Valdemar, Heralds Mags and Amily must continue to protect the realm of Valdemar while raising their children and preparing them to follow in their footsteps. Mags, Herald Spy of Valdemar, and his wife, Amily, the King's Own Herald, are happily married with three kids. The oldest, Peregrine, has the Gift of Animal Mindspeech—he can talk to animals and persuade them to act as he wishes. Perry's dream is to follow in his father's footsteps as a Herald Spy, but he has yet to be Chosen by a Companion. Mags is more than happy to teach Perry all he knows. He regularly trains his children, including Perry, with tests and exercises, preparing them for the complicated and dangerous lives they will likely lead. Perry has already held positions in the Royal Palace as a runner and in the kitchen, useful places where he can learn to listen and collect information. But there is growing rural unrest in a community on the border of Valdemar. A report filled with tales of strange disappearances and missing peddlers is sent to Haven by a Herald from the Pelagirs. To let Perry experience life away from home and out in the world, Mags proposes that his son accompany him on an expedition to discover what is really going on. During their travels, Perry's Animal Mindspeech allows him to communicate with the local wildlife of the Pelagirs, whose connection to the land aids in their investigation. But the details he gleans from the creatures only deepen the mystery. As Perry, Mags, and their animal companions draw closer to the heart of the danger, they must discover the truth behind the disappearances at the border—before those disappearances turn deadly.
