In Munjed Al Muderis's bestselling memoir *Walking Free*, he described his experience as a refugee fleeing Saddam Hussein's Iraq, his terrifying sea journey to Australia and the brutal mandatory detention he faced in the remote north of Western Australia. The book also detailed his early work as a pioneering orthopaedic surgeon at the cutting edge of world medicine. In *Going Back*, Munjed shares the extraordinary journey that his life-changing new surgical technique has taken him on. Through osseointegration, he implants titanium rods into the human skeleton and attaches robotic limbs, allowing patients genuine, effective and permanent mobility. Munjed has performed this operation on hundreds of Australian civilians, wounded British soldiers who've lost legs in Iraq and Afghanistan, and a survivor of the Christchurch earthquake in New Zealand. But nothing has been as extraordinary as his return to Iraq after eighteen years, at the invitation of the Iraqi government, to operate on soldiers, police and civilian amputees wounded in the horrific war against ISIS. These stories are both heartbreaking and full of hope, and are told from the unique perspective of a refugee returning to the place of his birth as a celebrated international surgeon.

From Strand Critics Award winner Sheena Kamal, comes the third novel featuring the brilliant, fearless, deeply flawed Nora Watts whose vendetta against a triad enforcer escalates when he places a target on her daughter's back. Find your enemy. Before he finds you. Nora Watts has a talent for seeing what lies beneath strangers' surfaces, and for knowing what they're working hard to keep hidden. Somehow, it's the people closest to her she has trouble truly connecting with. In the case of Bonnie, the teenage daughter Nora gave up for adoption, she has to keep trying. For Bonnie has a target on her back—and it's all because of Nora. Two years ago, Bonnie was kidnapped by the wealthy Zhang family. Though Nora rescued her, she made a powerful enemy in Dao, a mysterious triad enforcer and former head of the Zhangs' private security. Now Dao is out for revenge, and she needs to track him down in order to keep herself—and Bonnie—safe. On Dao's trail, Nora forms an unlikely partnership with Bernard Lam, an eccentric playboy billionaire with his own mysterious grudge to bear, and reunites with Jon Brazuca, ex-cop turned private investigator and Nora's occasional ally. From Canada to southeast Asia they pursue Dao, uncovering a shadowy criminal cabal. But soon, the trail will lead full circle to Vancouver, the only home Nora's ever known, and right to the heart of her brutal past.

One of America's most distinguished poets now shares his fascination with a distinctive corner of our country. Richard Shelton first came to southeastern Arizona in the 1950s as a soldier stationed at Fort Huachuca. He soon fell in love with the region and upon his discharge found a job as a schoolteacher in nearby Bisbee. Now a university professor and respected poet living in Tucson, still in love with the Southwestern deserts, Shelton sets off for Bisbee on a not-uncommon day trip. Along the way, he reflects on the history of the area, on the beauty of the landscape, and on his own life. Couched within the narrative of his journey are passages revealing Shelton's deep familiarity with the region's natural and human history. Whether conveying the mystique of tarantulas or describing the mountain-studded topography, he brings a poet's eye to this seemingly desolate country. His observations on human habitation touch on Tombstone, "the town too tough to die," on ghost towns that perhaps weren't as tough, and on Bisbee itself, a once prosperous mining town now an outpost for the arts and a destination for tourists. What he finds there is both a broad view of his past and a glimpse of that city's possible future. *Going Back to Bisbee* explores a part of America with which many readers may not be familiar. A rich store of information embedded in splendid prose, it shows that there are more than miles on the road to Bisbee.

Eight years ago, Daphne Stoltz and Brad Torrance wound up in bed together. She was reeling from her old boyfriend's betrayal, he was bored, and they'd both had a bit too much to drink. Brad's job transfer to New York City places him in

Realtor Daphne's region, and their college classmates insist that Brad should use Daphne to help him find a house. Stuck together on this mission, they discover that they actually like each other. They could never be lovers, though, because Brad startlingly handsome and Daphne is homely. They just don't match. But they could be friends—true, close friends—if only they can figure out a way to undo the mistake from their past. All they'd have to do is go back and make things right.

"A vital, understated contribution to the body of Holocaust literature."-Kirkus Reviews <https://www.kirkusreviews.com/book-reviews/andrea-von-treuenfeld/going-back/> How many Jewish women do you know who moved back to post-war Germany? In this collection of survivor stories, you'll meet 16. Each of these women recounts her life story with grace and courage, even as they remember horrors of the holocaust. Stories of fleeing war and living as a refugee, of deep personal loss and of German repatriation. Some were young and fled with family, some were older and escaped on their own. They all had to start fresh somewhere, with a new language, a new environment and new people. Some had difficulty adapting to their new homes, others grew to feel at home. Where did they go? How did they live? And what drove them back? Stories of survival with the power to uplift! Click "look inside" above the book's image at the top left side of the page. Ruth Galinski was forced to leave Germany for Poland in 1938. She learned the language, got married and ended up in the Warsaw Ghetto. When her husband didn't return home one day, she feared the worst and fled to the Tatras with a small resistance group. After the war, she ended up back in Germany for what she thought would be a short time. Then, she met her second husband, a man famous for rebuilding the Jewish community in Berlin. Steffi Wittenberg first fled to Uruguay with her family when she was 14. There she learned Spanish and English, along with office skills that earned her a living as a foreign language secretary. She married a German Jew, who had also fled to Uruguay, and had family in Houston, Texas. They went to Houston to work for his cousin but ended up fighting with union workers and against racism. They were harassed during the McCarthy Hearings and felt like there was nowhere else to go but to East Germany. They were rejected as potential American spies! Eva Fröhlich had to leave everything behind. She went with her family to Uruguay, where she improved her Spanish skills while helping her mother earn money by making embroidered dresses. She met her future husband while visiting a cousin in Brazil. She spent decades there giving private English lessons while her husband sold this and that. After their retirement, he wanted to return to Germany, where many of his friends had gone, but she didn't want to. Perhaps not surprising, family underscores the reason each went back. Many biographies about holocaust survivors are displays of bravery and triumph of the human spirit. Beneath the surface of these diary-like entries, we discover a compelling survival guide. And we find illuminating perspectives on Jewish history and Jewish identity. From the author: Their childhoods were spent in Berlin or Stettin, in Framersheim or Frankfurt. Happy and sheltered and believing that it would always be that way. Until, as Jews—something they weren't even conscious of up to this point, and even if they were, then certainly not of the stigma that came with it—they were excluded. It was insidious in the beginning, but then it became more and more brutal. First it was a girlfriend who would look away without a word. Then the schools, which remained closed to them. Finally, they descended into poverty, because their fathers lost their jobs. And then the all-pervasive threat, the fear of being arrested. In the end, only fear of the unknown remained as they were deported, forced underground or were able to emigrate just in time. So why this difficult step back to a place that could never again be home after the Holocaust?

In his sixth collection of poetry, *Going Back*, poet Jim Neely takes us on the long road from youth to old age with a wide array of human insights. He presents richly sensitive poetry overflowing with love and laughter for all things human and a voice that rings true with inevitable insights. The poems in this collection are intentionally scattered throughout the seven stages of man. In *Pitchfork*, a boy lies on his back gazing up in darkness with his father, learning how to calculate the distance of storms from a strike of lightning. A member of The Greatest Generation, Neely shows what made men so proud to go to war for their country. There is the joyful love of a first marriage in *Honeymoon* and the sadness of divorce in *Dream House*. He struggles alone to unearth Hemingway's grave in the midst of an Idaho snowstorm in *A Farewell to Arms* and recalls his incomparable father's love of children in *The Cardboard Slide* and *Swinging with Heather*. Direct and straightforward, yet realistic and imaginative in style, Neely's collection of verse explores a lifetime of experiences and emotions with pathos, humor, and startling resolutions.

Like millions of other young Americans in the 1930s, Charles Furey grew up surrounded by the images and memories of World War I, not knowing that he was part of a generation bred for another war. Pearl Harbor changed all that. In 1942 he enlisted in the Navy and, for the next three years, fought in a war that transformed him, the nation, and the world. From that time Furey has fashioned this superbly written memoir that follows him from his stateside training, his service as an air crewman on a patrol bomber, his long recovery from a fiery plane crash, all the way to his poignant homecoming. Along with harrowing accounts of air actions over the South Pacific and grim descriptions of wounded men in hospitals, *Going Back* includes many vividly portrayed characters and offers remarkable insight. Readers will long remember such men as Lieutenant Morrison, the man whose small gesture forged an intense camaraderie among his crew, and Murphy, the Marine whose humor helped dull the pain of Furey's wounds. Nor will they soon forget the author's reflections on the fate that history held for him, his friends, and all those who came of age with him, or his stunning evocation of a period of great national change. *Going Back* provides a colorful and honest recollection of the war years and addresses such timeless themes as loyalty, humor, family, and profound loss.
