This book is an interdisciplinary exploration of literary tourism 's role in shaping how locations in the British and Irish Isles have been seen, narrated, and valued. It explores the consequences of fictional constructions for the history, economics, and cultural politics of

Transmediation--the telling of a single story across multiple media--is a relatively new phenomenon. While there have been adaptations (books to films, for example) for more than a century, modern technology and media consumption have expanded the scope of trans-mediating practices. century cinema, Alfonso Cuarón ' s 2004 film Harry Potter and the Prisoner of Azkaban is an elegant exemplar of contemporary cinematic trends, including serial storytelling, the rise of the fantasy genre, digital filmmaking, and collaborative authorship. With craft, wonder, and wit, the film captures the most engaging elements of the novel while artfully translating its literary point of view into cinematic terms that expand on the world established in the book series and previous films. In this book, Patrick Keating examines how Cuarón and his collaborators employ cinematography, production design, music, performance, costume, dialogue, and more to create the richly textured world of Harry Potter—a world filtered principally through Harry ' s perspective,

characterized by gaps, uncertainties, and surprises. Rather than upholding the vision of a single auteur, Keating celebrates Cuarón ' s direction as a collaborative achievement that resulted in a family blockbuster layered with thematic insights.
