of many special educational needs, the authors place a firm emphasis on inclusion and suggest practical strategies enabling professionals to maximise inclusion while at the same time recognizing and supporting diversity. Key features of the third edition include:

- The increasingly diverse SEN approaches and legislation across England, Wales, Scotland and Ireland, within an international context
- Provision and arrangements for 16-25 year olds
- Identification, assessment and intervention strategies for SEN from the early years
- Responding to the diversity of social,

scientific knowledge as a process of inquiry rather than having them act as passive learners memorizing stated scientific facts. Although this perspective of teaching science is clearly emphasized in the National Research Council's National Science Education Standards (NRC, 1996), it is however challenging to achieve in the classroom. Science teaching approaches should enhance students' conceptual understanding of scientific concepts which can be later utilized by students in deeper recognition of real world (Marsak & Janouskova, 2007). This book identifies and describes several
