Cerner Ccl Training Courses - 10/2020

Cerner CCL (Cerner Command Language) is the Cerner Corporation fourth-generation programming language, which is expressed in the Cerner Discern Explorer solution. CCL is patterned after the Structured Query Language (SQL). All Cerner Millennium health information technology solutions use CCL/Discern Explorer to select from, insert into, update into and delete from a Cerner Millennium database. CCL allows a programmer to fetch data from an Oracle database and display it as the user wants to see.

Introduction - Cerner

Cerner Millennium database is a relational OLTP database in the 3rd normal form (with some tables being an exception from this rule). Cerner calls its database design "person-centric" because at its core are individuals-patients and associated information that is broader than a single episode or encounter of care.

Cerner's recommendations for client CCL training are on uCern:  
<https://connect.cerner.com/docs/DOC-411443>. I believe that book was  
created by a client, because Cerner at one time did not have CCL  
documentation publically available. I don't believe that book is any  
kind "official" reference. Cerner has since put that documentation on  
uCern:
