Simulation #343 Dan Saffer - Productizing New Technology **Microinteractions Designing With Details Dan**

Microinteractions is an essential guide to designing in today's world where a typical person touches a hundred different user experiences each day, and only the clearest interactions will turn a new user experience into a cherished product. In this book, Dan Saffer turns the Cognitive Walkthrough on its head and takes it to the next level, creating a new model for defining interactions and illustrating the strength of designing for moments rather than systems.

Microinteractions | Designing with Details

Read Book **Microinteractions Designing With Details** Dan Saffer

Dan provides a framework for discussing microinteractions: 1) triggers, 2) rules, 3) feedback, and 4) loops and modes. Personally, I find this framework somewhat analogous to, but less well defined than, Don Norman "Microinteractions" - the tiny details of how a product or its user interface interacts with its user.

Dan Saffer It's the little things that turn a good digital product into a great one. With this full color practical book, you'll learn how to design effective microinteractions: the small details that exist inside and around features. How can users change a setting?

Microinteractions: Full Color Edition: Designing with Details

"The best products do two things well: features and details. Features are what draw people to your product; details are what keep them there" says Dan Saffer. The importance of details can't be over-emphasized. Details make users love or hate an app or website. Microinteractions are those details.

microinteractions full color edition designing with details

Microinteractions are contained product moments that revolve around a single use case—they have one main task. Every time you change a setting, sync your data or devices, set an alarm, pick a password, log in, set a status message, or favorite or “like” something, you are engaging with a microinteraction.

Microinteractions: Designing with Details 1, Saffer, Dan ...

The Microinteractions Model. Microinteractions have four parts: a Trigger, the Rules, Feedback, and Loops/Modes. The Trigger is what starts a microinteraction. This can be a manual control, such as when a user clicks a button or an icon, or it can be the system trigger that goes off when a set of conditions has been met.
