Kirti Tsenshap Rinpoche was a renowned teacher of Tibetan Buddhism with students worldwide. Revered as a teacher by even the Dalai Lama, he was known especially as a master of Buddhist tantra, the powerful esoteric methods for attaining enlightenment swiftly. The teachings in this book are a singular record of his deep learning in that field. Originally delivered in California to a group of Western students, the teachings comment on a classic introduction to tantra by the nineteenth-century Mongolian lama Choje Ngawang Palden. The work, Illumination of the Tantric Tradition, is a staple even today of the curriculum for training young monastics. Kirti Tsenshap Rinpoche explains the distinctive features of the four classes of tantra--action tantra, performance tantra, yoga tantra, and highest yoga tantra--by describing the way to progress through their paths and levels. He illuminates key issues in tantric practice that are still a matter for debate within the tradition. Finally, he gives a special treatment of the unique methods of Kalacakra tantra, which is regularly taught around the globe by His Holiness the Dalai Lama.

The present work is a defense of the Tantra, of which Sastra the author is an adherent and a polemic, undertaken in the interests of Hindu orthodoxy in its Sakta and Tantrika form against secularism on the one hand, and on the other the religious eclecticism and various reforming movements, of which, when the book was first written, the Brahmasamaj was a leading type. In fact, in parts the book reads like an orthodox Catholic protest against modernism and is thus interesting as showing how many fundamental principles are common to all orthodox forms of belief, whether of West or of East. The author of the Tantratattva (on which this translation is based) is a well-known Tantrik Pandit, preacher, and secretary of the Sarvagalasabha of Benares, who knew no English. His work, which is written in Bengali, may therefore be taken to be an accurate popular statement of modern orthodox views on the subject treated by him. The word Tattva is a very comprehensive one, which is by no means always easy to translate. The author has rendered the title of the book as Principles of Tantra, though, may be, it should be Subjects of Tantra. The work deals with chosen topics of Tantra. This, however, also involves a statement of certain fundamental principles which govern Sastrik teaching on the subjects dealt with, and this as well as the contents of possible future volumes must be the justification for giving the book ambitious title.

We gay folk, who inhabit bodies of the type we naturally desire, require a sex-positive spiritual practice that celebrates and utilizes our gay being instead of opposing it. We need a spiritual practice that teaches us how to use our senses instead of merely shutting them off or repressing them. We need a practice that empowers us to integrate all the rejected aspects of self to form a strong, healthy gay identity, which confers a spiritual advantage in deep spiritual practice. We need a spiritual practice that recognizes that gender and gender identity are fluid, that we all contain elements of the masculine and feminine. We need a spiritual practice that recognizes not only that same-sex love is possible, but that our love can powerfully energize a deep quest for Self-awareness and enlightenment. We need to realize that any feeling of shame or unworthiness connected to our gay being shackles our spirit and blocks us from the full realization of God/dess within, for the Divine Being is gay, too.
